

## Safety Data Sheet

### Product identifier

#### Product Name

- **COMMERCIAL INSULATION – SUSTAINABLE INSULATION™**

#### Synonyms

- CertainPro™ Thermal Foil Faced Batts; CertaPro™ AcoustaBlanket™ Black; CertaPro™ AcoustaBoard™ Black; CertaPro™ AcoustaTherm™ Batts (Unfaced & Kraft-Faced); CertaPro™ Partition Batts; CertaPro™ Thermal Extended Flange Batts (FSK, White PSK Faced); CertaPro™ Thermal FSK-25 Faced Batts; CertaPro™ Thermal Kraft Faced Batts

#### Product Code

- CT 10161-3

### Relevant identified uses of the substance or mixture and uses advised against

#### Recommended use

- Fiber Glass Insulation

### Details of the supplier of the safety data sheet

#### Manufacturer

- CertainTeed Corporation  
P.O. Box 860  
Valley Forge, PA 19482-0101  
United States  
www.certainteed.com  
CertainTeed - EHS@saint-gobain.com

Telephone (General) ● 610-341-7000

### Emergency telephone number

#### Manufacturer

- (800) 424-9300 - Chemtrec

#### Manufacturer

- (703) 527-3887 - Outside of the U.S. Chemtrec

#### Product Literature Code

- 30-45-058

#### Key to abbreviations

‡ = HMIS is a registered trademark of the American Coatings Association

## Section 2: Hazard Identification

### United States (US)

According to OSHA 29 CFR 1910.1200 HCS

#### Classification of the substance or mixture

- OSHA HCS 2012 ● Classification criteria not met

#### Label elements

OSHA HCS 2012

- Hazard statements** ● No label element(s) required

#### Other hazards

- OSHA HCS 2012 ● This product is not considered hazardous under the U.S. OSHA 29 CFR 1910.1200 Hazard Communication Standard.

**Canada**

According to WHMIS

**Classification of the substance or mixture****WHMIS**

- Classification criteria not met

**Label elements****WHMIS**

- No label element(s) required

**Other hazards****WHMIS**

- In Canada, the product mentioned above is not considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

**Other information**

- Hearing Conservation: Some blowing machines used to install blown-in products create elevated sound levels which may affect workers' hearing. Use of hearing protection by workers exposed above 85 dB(A) as an 8-hour TWA is recommended. This product may cause temporary irritation to the upper respiratory system, eyes, and skin. Avoid inhalation, skin and eye contact as temporary irritation may occur. Wear appropriate personal protective equipment as described in Section 8.

See Section 12 for Ecological Information.

**Section 3 - Composition/Information on Ingredients****Substances**

- Material does not meet the criteria of a substance.

**Mixtures**

Hazardous Components					
Chemical Name	Identifiers	%(weight)	LD50/LC50	Classifications According to Regulation/Directive	Comments

See Section 11 for Toxicological Information.

## Section 4: First-Aid Measures

### Description of first aid measures

#### Inhalation

- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing.

#### Skin

- IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.

#### Eye

- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

#### Ingestion

- Consult a physician if unusual reaction is noted. Product is not intended nor is it likely to be ingested or eaten.

### Most important symptoms and effects, both acute and delayed

- Refer to Section 11 - Toxicological Information.

### Indication of any immediate medical attention and special treatment needed

#### Notes to Physician

- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

See Section 2 for Potential Health Effects.

## Section 5: Fire-Fighting Measures

### Extinguishing media

#### Suitable Extinguishing Media

- LARGE FIRE: Water spray, fog or regular foam.  
SMALL FIRES: Dry chemical, CO<sub>2</sub>, water spray or regular foam.

#### Unsuitable Extinguishing Media

- None known.

### Special hazards arising from the substance or mixture

#### Unusual Fire and Explosion Hazards

- Material is non-combustible and is not expected to pose a fire or explosion hazard.

#### Hazardous Combustion Products

- No data available

### Advice for firefighters

- Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.  
Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.  
Wear positive pressure self-contained breathing apparatus (SCBA).

## Section 6 - Accidental Release Measures

### Personal precautions, protective equipment and emergency procedures

#### Personal Precautions

- Wear appropriate protective equipment including respiratory protection as conditions warrant. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate enclosed areas.

#### Emergency Procedures

- As an immediate precautionary measure, isolate spill or leak area for at least 25 meters (75 feet) in all directions. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area) Stay upwind. Keep out of low areas. Keep unauthorized personnel away. Ventilate closed spaces before entering.

#### Environmental precautions

- No special precautions necessary.

### Methods and material for containment and cleaning up

#### Containment/Clean-up Measures

- SMALL SPILLS: Take up with sand or other non-combustible absorbent material and place into containers for later disposal.  
LARGE SPILLS: Dike far ahead of spill for later disposal.

#### Reference to other sections

- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

## Section 7 - Handling and Storage

### Precautions for safe handling

#### Handling

- Do not breathe dust from this material. Keep this product from heat, sparks, or open flame. Use this product with adequate ventilation. Always wash work clothes separately from other clothing. Wipe out the washer or sink to prevent loose glass fibers from getting on other clothing. Wash thoroughly after handling. Use personal protective equipment as described in Section 8.

### Conditions for safe storage, including any incompatibilities

#### Storage

- Store in a well-ventilated place. Keep container tightly closed.

## Section 8 - Exposure Controls/Personal Protection

### Control parameters

**Exposure Limits Supplemental**

**ACGIH**

•Asphalt (8052-42-4): **BEIs:** (Medium: urine Time: end of shift at end of workweek Parameter: 1-Hydroxypyrene with hydrolysis (nonquantitative)) | **TLV Basis - Critical Effects:** (eye and upper respiratory tract irritation (fume))

**Exposure controls**

**Engineering Measures/Controls**

- Avoid spread of fiber glass dust. Provide general and/or local exhaust ventilation to control airborne dust levels below exposure limits.

**Personal Protective Equipment**

**Pictograms**

**Respiratory**

- Wear NIOSH-certified respirators when handling and applying fiber glass insulation

products in accordance with established exposure guidelines - If the exposure is less than 10 times the exposure guideline wear 1/2 mask respirator, N95 or higher, such as 3M brand #8210, #8511 or #8233. If the exposure is less than 50 times the exposure guideline wear a full face respirator, N100 or higher, such as 3M brand 6000 or 7000 series.

**Eye/Face**

- Safety glasses with side shields should be worn at a minimum. In dusty environments chemical goggles should be worn.

**Hands**

- Leather or cotton gloves may be worn to prevent skin contact and irritation.

**Skin/Body**

- Work clothing sufficient to prevent all skin contact should be worn, such as overalls, long sleeves and cap.

**General Industrial Hygiene Considerations**

- Wash hands, face and other potentially exposed areas immediately after handling material (especially before eating, drinking, or smoking). Decontaminate all protective equipment after use.

**Key to abbreviations**

PEL = Permissible Exposure Level determined by the Occupational Safety and Health Administration (OSHA)

STEL = Short Term Exposure Limits are based on 15-minute exposures

TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

ACGIH = American Conference of Governmental Industrial Hygiene

NIOSH = National Institute of Occupational Safety and Health

OSHA = Occupational Safety and Health Administration

**Section 9 - Physical and Chemical Properties**

Degradation	Data lacking		

## Section 10: Stability and Reactivity

### Reactivity

- No dangerous reaction known under conditions of normal use.

### Chemical stability

- Stable under normal conditions of use.

### Possibility of hazardous reactions

- Hazardous polymerization not indicated.

### Conditions to avoid

- Keep away from heat, ignition sources and incompatible materials.

### Incompatible materials

- Hydrofluoric acid.

### Hazardous decomposition products

- Hazardous decomposition may occur generating toxic fumes/vapors, oxides of carbon (COx), oxides of nitrogen (NOx).

## Section 11 - Toxicological Information

### Information on toxicological effects

Component Name	CAS	Data
Acetic acid, vinyl ester, polymer (< 11%)	9003-20-7	<b>Acute Toxicity:</b> orl-rat LD50:>25 gm/kg
Acetic acid ethenyl ester, polymer with ethene (< 7%)	24937-78-8	<b>Acute Toxicity:</b> Ingestion/Oral-Rat LD50 • >2500 mg/kg

**Route(s) of entry/exposure**      • Inhalation, Skin, Eye, Ingestion

**Medical Conditions Aggravated by Exposure**      • Skin/Dermal Lungs .

**Potential Health Effects**

**Inhalation**

**Acute (Immediate)**

- The dust from this material may cause respiratory irritation.

**Chronic (Delayed)**

- Use of these products has not been shown to cause cancer in humans. Fiber glass wool is a possible cancer hazard. Fiber glass wool has caused cancer in animals but has not produced cancer by inhalation.

**Skin**

**Acute (Immediate)**

- Temporary irritation of the skin may occur in some individuals.

**Chronic (Delayed)**

- Data lacking.

**Eye**

**Acute (Immediate)**

- Contact with the eyes may cause irritation due to the abrasive action of the dust. Not expected to cause prolonged or significant eye irritation. Material is dusty and may scratch the surface of the eye.

**Chronic (Delayed)**

- Data lacking.

**Ingestion**

**Acute (Immediate)**

- Unlikely. Contact physician if unusual reaction is noted.

**Chronic (Delayed)**

- Data lacking.

**Carcinogenic Effects**

- This product contains glass wool insulation fibers. Following a thorough review of all the medical-scientific data available at a meeting in October 2001, the IARC panel lowered the classification for glass wool insulation fibers from a Group 2B classification ("possibly carcinogenic to humans") to a Group 3 classification ("not classifiable as to carcinogenicity to humans"). According to IARC, there is "no evidence of increased risks of lung cancer or of mesothelioma from occupational exposures during manufacturing of these materials, and inadequate evidence overall of any cancer risk." This product contains petroleum asphalt. Asphalt fumes arise from hot asphalt. Asphalt fumes (CAS # 8052-42-4): In 1985/87, IARC (International Agency for Research on Cancer) concluded the following: (a) Bitumens are not classifiable as to their carcinogenicity to humans (Group 3). (b) Extracts of steam- and air-refined bitumens are possibly carcinogenic to humans (Group 2B). IARC found that evidence for carcinogenicity from animal studies was: inadequate for undiluted air-refined bitumens; limited for steam-refined and cracking residue bitumens; sufficient for extracts of steam-refined and air-refined bitumen. IARC found that human evidence for carcinogenicity of asphalt fumes was inadequate. Studies of roofers indicated an excess of cancers; however, IARC concluded that, since roofers may be exposed also to coal-tar pitches and other materials, "the excess cancer risk cannot be attributed specifically to bitumens." In 1994, a published review of 20 epidemiology studies of

asphalt workers and roofers agreed with IARC, that current human evidence is inadequate for the carcinogenicity of asphalt fumes in humans. Trace amounts of polynuclear aromatic hydrocarbons (PAHs) may be present in some asphalts and can be released upon excessive heating, which results in thermal cracking of the asphalt compounds. Some of these PAHs have been identified as having the potential to induce carcinogenic and reproductive health effects.

<b>Carcinogenic Effects</b>			
	<b>CAS</b>	<b>IARC</b>	<b>NTP</b>
Asphalt	8052-42-4	Group 2B-Possible Carcinogen	Not established
Acetic acid, vinyl ester, polymer	9003-20-7	Group 3-Not Classifiable	Not established
Glass, oxide, chemicals as Glass wool fiber	NDA	Group 3-Not Classifiable	Reasonably Anticipated to be Human Carcinogen

**Key to abbreviations**

TC = Toxic Concentration

LD = Lethal Dose

## Section 12 - Ecological Information

**Toxicity**

- Binder-coated fiber glass is hydrophobic, therefore, no adverse environmental effects would be expected if this product were accidentally released in the water or soil. No harm to fish or wildlife would be caused by this product.

**Persistence and degradability**

- Material data lacking.

**Bioaccumulative potential**

- Material data lacking.

**Mobility in Soil**

- Material data lacking.

**Other adverse effects****Ecological Fate**

- Material data lacking.

**Other Information**

- CertainTeed's residential fiber glass insulation batts meet GREENGUARD Emission Standards. CertainTeed's certification confirms compliance with GREENGUARD Emission Standards, which are based on criteria used by the State of Washington, the U.S. Environmental Protection Agency (EPA), OSHA and the World Health Organization for total particulate and Volatile Organic Compounds (VOC) emissions. Additionally, CertainTeed's residential fiber glass insulation products meet the following emission criteria: California Section CA1350 material specification for schools and offices; OSHA Purchase Specification; State of Washington; EPA; and Proposed State of California. CertainTeed's residential fiber glass insulations also meet the EPA Recovered Material Guideline for recycled content.

## Section 13 - Disposal Considerations

**Waste treatment methods****Product waste**

- Dispose of content and/or container in accordance with local, regional, national, and/or

international regulations.

**Packaging waste**

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

**Section 14 - Transport Information**
