Product(s): Tear Away Shadow Bead

Description: Trim-Tex Tear Away Shadow Bead is used to create a reveal effect when butting up to door jams, base trim, ceilings, and light boxes. Features a tear off strip for a clean finished edge.

Advantages: Qualifies for LEED® points. Made from rust proof, dent resistant PVC to reduce jobsite and handling damage. Tear off strip allows for a clean crisp finish. Built in expansion virtually eliminates edge cracking.

Limitations: Product is designed for interior use.

Applicable Standards: Rigid PVC products made by Trim-Tex meet ASTM specifications D3678-97, D1784-03, C1047-99 and achieve a Class A rating for flame spread and smoke developed when tested under ASTM E84-10.

Surface Characteristics: Trim-Tex products are made from PVC. PVC does not support combustion and is self extinguishing when the source of flame or heat is removed.

Installation: Snip the bead to length and dry fit. Install with Trim-Tex 847 Spray Adhesive and 1/2" divergent staples. Once mudding is complete, remove tear off strip for a clean, sharp look.

Finishing: To improve the bondability of drywall compounds, textures & plaster products to any bead, use MUD-MAX Drywall Compound Additive. For texture finishes. Priming is not required. Always use a high quality paint.

Accessories: 847 Spray Adhesive, Staple Guns and Divergent Staples, Trim-Tex Sanding Blocks & Abrasive Products, Mud-Max Drywall Compound Additive, North by Honeywell -Safety Products distributed by Trim-Tex.
